RAILROAD COMMISSIONERS

Wilson Removed by Governor Russell.

VIOLATED R. R. COMMISSION LAW

Gentlemen, You are Disqualified for the Positions—L. C. Caldwell and John H. Pearson Appointed.

Governor Russell has sent letters to each of the Wilsons suspending them from office. The opening paragraph sets forth reasons as follows:

"Sir: Take notice that after due investigation and consideration, I am convinced that you have violated the railroad commission law, in some of the particulars mentioned in my letter to you of August 24th, 1897, and that you have not only violated said Act in the specifications set out in said Act, but that you have otherwise, within the meaning and intent and words of said Act, 'become unqualified to act.'"

The new appointments are John H. Pearson and L. C. Caldwell. Mr. Pearson was a Democratic member of the last general assembly from Burke county, and Mr. Caldwell is a prominent lawyer of Statesville.

The old commissioners refuse to give up their places and will be recognized by the remaining member until the courts pass upon the matter. Mr. Caldwell has retained Judge Montgomery, of Concord, as his counsel, and Judge McRae, of Raleigh, will appear for Mr. Pearson.

The new commission will be composed of one Democrat, one Republican and one Populist under the new management.

AT THE N. AND I. COLLEGE.

Work on the Horticultural and Dairy Departments.

The work on the horticultural department buildings and grounds at the Normal and Industrial college is being prosecuted. This will be one of the most important departments of this progressive institution.

Dr. McIver tells us that the dairy department is receiving special attention. A number of fine blooded cows will be purchased and plenty of ground sown in clover to keep them.

This department is expected to be, and there is not the leat doubt that it soon will be, self-sustaining. THE TELEGRAM will have more to say of these important departments as the work progresses.

Anti-Civil Service Meeting.

WASHINGTON, D. C., Sept. 24.—At a regular meeting of the National Republican Anti-Civil service League, held at Emrich's Hotel last evening, President A. M. Clapp presiding, letters were read from republicans in New York, Ohio, Virginia, Michigan, Maryland, New Jersey, North Carolina, West Virginia, Tennessee, Iowa and other states, favoring the purposes of the league, and pledging their hearty support and asking the league to forward anti-civil service literature.

Big Canal Project.

DETROIT, Mich., Sept. 24.—A special to the Tribune from Niles, Mich., says: A. Stewart Appleton is on his way from Niles to Washington to bring before Congress again the matter of a ship canal connecting Lake Erie with the southern end of Lake Michigan. The scheme is to have the canal nine feet deep and the estimated cost is $15,000,000.

Such canal would cut off about 1,000 miles of travel and add six weeks to the navigation at the end of the season.

A Chip Off the Old Block.

A special to the New York World from London says: The infant Marquis of Blandford, and prospective Duke of Marlborough, is voted to be the image of his mother by the half dozen relatives who have been privileged to gaze upon him. The Churchill physiognomy has for the first time in generations been obliterated by the Vanderbilt strain.

W. K. Vanderbilt is joyous over the prospect that the next duke will be a real chip of the old Vanderbilt block.

Ex-Senator Evarts Improving.

NEW YORK, Sept. 23.—At the residence of William M. Evarts it was said this morning that the ex-senator's condition was about the same as for some time past and that he is steadily improving. He keeps to his bed most of the time, but is able to sit up for a short time every day. The chances for his ultimate recovery to health are very favorable.

Cotton Receipts.

By Wire to THE TELEGRAM.

NEW YORK, Sept. 24.—The receipts of cotton at all ports are 37,529 bales, against 44,462 last year.

HIS LIFE PROLONGED A MONTH.

Governor Reprieves a Man Under Sentence of Death at Whiteville.

Lunnon Haynes, convicted of murder in the first degree at the August term of Columbus Superior court, and sentenced to be hanged on September 24th, has been reprieved until November 5th next.

This was done at the request of Solicitor Seawall and the sheriff who certify that it is necessary for the prisoner to live until the next term of the Superior court, October 25th, to give evidence against certain accessories to his crime, both before and after the fact.

Haynes killed a young white boy, shooting him without warning through a window.—News and Observer.

HEAVY LOSS OF LIFE.

A Landslide Imprisons Forty Men In A Sulphur Mine.

By Cable to THE TELEGRAM.

PALERMO, ITALY, Sept. 24.—A landslide at Gergonti, which is ninety-six miles southeast of here, this morning, caused a heavy loss of life. It wrecked the sulphur mine in which a large number of men were working, imprisoning them in the mine. Forty miners are missing, and it is utterly impossible to save them as the earth is still sliding in the mine.

SENT NO ULTIMATUM TO SPAIN.

Strained Relations of the Two Countries Exaggerated.

NEW YORK, Sept. 24.—A special to the Herald from London says:

In reference to the sensational telegrams from Madrid about the alleged ultimatum and inevitability of war between the United States and Spain, the Herald correspondent had a conversation with a distinguished American diplomat, who is in a position to know the exact state of affairs, but for obvious reasons would not allow his name to be mentioned. He said:

"I cannot, of course, pledge in advance the government of the United States, but so far as the present is concerned, such a step is not in contemplation. The United States has probably intimated through Minister Woodford that the present state of affairs is most deplorable and that if we could be of any assistance in bringing such a condition of things to an end we should be glad to offer our services.

"But you may state absolutely that no ultimatum has been sent to Spain by the United States."

SCHEME TO DEFRAUD.

Commissioner Goes to New York to See About It.

WASHINGTON, Sept. 23.—Commissioner Jones, of the Indian bureau, goes to New York today in response to a report that many of the blankets furnished by the contractors for Indians for the coming winter are not up to requirements of the contract. Frosts Kill Tobacco In Tennessee.

FIRED A FEVER HOSPITAL

A Mob Plays Havoc in New Orleans

THE POLICE QUELLED THE MOB,

But Soldiers May Have to be Called Out—Three New Cases at Biloxi and One at New Orleans.

By Wire To THE TELEGRAM.

NEW ORLEANS, Sept. 24.—The main portion of the Beauregard school building, which would have been used for a yellow fever hospital, was set on fire by a mob of enraged citizens of that district this morning. Efficient work by the fire department in the face of a determined attack by the mob was all that saved the building from total destruction.

Two men with a five gollon can scattered oil around and the flames spread with great rapidity. On the arrival of the fire engine the mob cut the hose to prevent the fire from being extinguished but a squad of police was hurried to the scene and held the crowd at bay while the firemen worked. In this way part of the building was saved.

It is possible that the Soldiers will be called out to protect the remainder of the building that it may be used for yellow fever patients. It is feared another attempt will be made to destroy the building tonight.

Only one new case of fever was reported this morning in a dangerous condition.

Concealing Cases at Biloxi.

BILOXI, Miss., Sept 24.—Only three new cases of yellow fever were reported here this morning. The physicians state that the weather conditions are very favorable.

The impression is general here that many cases of fever exist that are not known outside of the immediate families of the patients.

DECKED IN LIVING GREEN.

The keeper of the capitol grounds at Raleigh is having the bronze statue of George Washington, which stands at the main entrance, painted bottle-green. The motive for this improvement is still wandering forlornly in the realm of conjecture, but it is possible that Keeper Burns wished to dispel, once for all, any doubts that might linger in the minds of the uninformed as to whether the present regime represents the culture of the day. It is a proof, too, that some of the divine fire of the immortal Robert, a perfect whirlwind of it in fact, is seething and sizzling in the bosom of the present Keeper Burns. Who suspected that a mute inglorious Praxiteles or Raphael was only waiting this opportunity to voiciferate himself in vocal green?

It is true that Keeper Burns is the only man in the state who could have germinated this idea, but since he has given it to the world any one can make suggestions. Great as is the gift to art we believe it would have been greater if he had painted half the statue green and half of it black; it is well known that nearly all great works of art are symbolic, the embodiment of an idea, and half green, half black, the statue of Washington would have been an eternal symbol of fusion in North Carolina.

But the artistic is not the only praise worthy feature of this change; it is also exquisitely humane. It must have been a bit embarrassing to the General to have people stare when he chanced to blush at any of the small indiscretions of the state administration; now when the insane asylum or the penitentiary are discussed in his presence he can shelter his feelings behind this friendly coat of impervious green.

It is an old charge that North Carolina does not properly honor her great men; here is a chance to wipe out the stigma at one fell swoop. Let a new office be created: call it the Ministry of Fine Arts and lo! a minister ready to your hand. Mr. Burns having painted this statue is weeping for other statues to paint—weeping bottle-green tears as big as the penitentiary deficit. Let the ministry be created. Burns the Poet! Burns the Painter! let the two names be spread on history's pages in such letters of living fire that men will have to wear green goggles to read them. Thus shall justice be done.

A comparison of existing financial conditions with those of a year ago shows the difference between a period of good politics and a time of doubt and dread.—Winston Republican.

It is also proof that even the worst possible politics cannot keep an energetic people down always. It is pertinent to observe, however, that in view of recent developments at Raleigh, people generally will scarcely agree with the Republicans taste as to "good politics."

IT is probable that in official circles at Raleigh the Insane Asylum affair is spoken of as the very latest unpleasantness.

WE may soon expect a protest from the aspirants for the places of the Wilsons two, on the Railroad Commission, against the interchange of compliments between the Governor and Senator on the ground that it is delaying the game.

ENGLAND is sending out "punitive expedition" against the tribesmen but, according to present indications, she will have to send out another expedition to punish the tribesmen for what they are doing to the punitives.

WITH the United States reaching in one direction for Hawaii and in another for Cuba, John Bull doubtless feels some regrets that he has not copyrighted his colonial policy.

THE attitude of Senator Butler and Otho Wilson is a brilliant example of the fact that the course of true love is inclined to be somewhat rough.

PHILADELPHIA is trying to secure a lease for its gas works. It can not decoy Mary Ellen from Kansas by the offer of such a superfluity.

THE hurricane probably considered that this State has enough ill winds of its own.

$1000 for Washington and Lee.

RICHMOND, Va., Sept. 23.—Hon. W. L. Wilson, president of the Washington and Lee university, today received a check for $1000 from W. C. Whitney, of New York, to be applied to the fund for the erection of the Tucker Memorial Hall, at the university.

Captured the Expedition.

JACKSONVILLE, Fla., Sept. 23.—A Floridian from Cuba reports that the recent filibustering expedition for the island was captured and the 19 men on the vessel were slain by the Spaniards. He adds that Havana is now suffering a beef famine.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discouery, says that last winter his wife was attacked with la grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into hasty consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for consumption, coughs and colds is guaranteed to do this good work. Try it. Free trial bottles at C. E. Holton's drug store.

Making Maps of the Boundary.

Mr. Tyson, of Knoxville, Tenn., is here making maps of the North Carolina-Tennesse boundary line along Jackson county. He represents the Beldings, Cincinnati people, who have some 150,000 acres of timber land there on the crest of the ridge which probably forms the boundary. He got the report of Montford Stokes and the two other commissioners, who, in 1821, during the administration of Governor Franklin ran, or rather re-ran, the line. The first survey was in 1799. About 20,000 acres of land bought by the Beldings are affected. So far they are found to be all right on the North Carolina side.—Raleigh Cor. Charlotte Observer.

Prof. J. M. Bandy went up to Oak Ridge this morning, where he will do some surveying on the county roads to be graded by the convicts.

Dr. J. W. Long, of Salisbury, who is a medical adviser of Watt's Hospital, Durham, was here this morning on his way to the latter place.

M. F. Roberts, who travels the South for Smith & Stoughton, a Boston shoe house, was here this morning, and left for Durham. He is "stuck" on Greensboro, and among many complimentary things he says that he has yet to find a town equal to the "City of Flowers" in push, energy and enterprise.

State Superintendent of Public Instruction Mebane passed through last night on his way to the eastern part of the state, where he will make several speeches. In conversation with a TELEGRAM man Mr. Mebane spoke of the State Library, and said the appropriation of $500 for supplying it with books, periodicals and newspapers was pitiably inadequate for that purpose.

Last Night's Show.

Dr. Blue Mountain Joe's people promised an extra good program last night, and kept their promise. They were greeted by a large audience notwithstanding the damp condition of the enclosure, and the frequent outbursts of applause was sufficient evidence that the entertainment was greatly enjoyed.

The show is replete with comical scenes and ridiculous sayings calculated to produce laughter by the most stoical persons. For tonight's program an entire change is announced. New songs, dances, sketches and music. The orchestra will be increased by the addition of two more musicians who joined the troupe today.

The comedian and negro impersonator is an artist in his line. We have seldom seen his equal on the stage. In fact, the whole troupe is good, each one fitting nicely in his place. Dr. Blue Mountain Joe did not introduce his remedies, but announced his office hours from 9 a. m. to 4 p. m. Consultation free.

That was a small job, but it was a big improvement—throwing that pulverized plastering in the holes on the sidewalk in front of the Academy of Music.

Work was resumed this morning on on the gas main, on South Elm. It was a considerable job to bail the water out of the ditch before work on the pipes could proceed.

About 10:45 last night the fire alarm was turned in from box 25. A small tenement house, outside of town, beyond the A. and M. college, was ablaze and being away from water the firemen could not reach it, so the building was burned. The loss is thought to be small.

W. B. Cheek, of Weaverville, tanner, has just completed a splendid bear skin for Frank A. Pierce, of Greensboro. The skin is six feet long, five feet wide and the bear that once wore it must have been of considerable size. The animal was killed in Haywood county.

No one seems to know how the news reached town, but there is a report current that the fox hunters, who are down in the woods about Manchester, have caught one fox. The weather has not been good for fox hunting this week up to today, but now it is just right for such sport.

Tribute to North Carolina.

The Baltimore Sun of yesterday pays the following high tribute to the Old North State:

A special to the Sun from Raleigh yesterday gave some interesting figures touching the industrial and other development in that State. The figures are instructive, and show a growth which will be at once surprising and gratifying to the friends of progress in the South. The fact that North Carolina is one of the leading cotton manufacturing States in the South is generally known, but it is not so well known that it is rapidly forging ahead in the shipment of lumber, and the eastern section of the State is becoming a vast trucking region, from which excellent results are being obtained. Western North Carolina is now the largest producer of tobacco used in the manufacture of the highest grades of chewing and smoking tobacco. In his recent address in Winchester, Va., Rev. Mr. Avirett showed how grandly North Carolina showed up in the number and courage of her soldiers during the civil war. The Sun's Raleigh correspondent shows that in peace, as in war, the motto of the old North State is "Forward," with results which promise to make her a prosperous and wealthy State.
